USING AN EXISTING IPAD

Refer to Apple Support to find out which model iPad you have: <http://apple.co/2qXVG6P>

The existing iPad you have may be an older model and might not be suitable for school. You must ensure the iPad:

- Runs iPadOS 17
- Has a minimum of 64GB
- Is a Wi-Fi iPad (or if it is cellular, remove the SIM permanently)

NOTE: a newer iPad will have greater longevity and access to the most current operating system.

STYLUS

It is **highly recommended** that your child has a stylus. The following brands (with approximate costs) are recommended:

- ZAGG Pro Stylus for Apple iPad (approx. \$80)
- Apple Pencil 1st Gen with USB-C to Pencil Adaptor (approx. \$150)
- Logitech Crayon (approx. \$100)

NOTE: These stylus options are available to purchase through the JB Hi-Fi Education Solutions Portal or can be purchased at most electronic stores. Ensure the stylus you choose is compatible with the iPad model you have.

HEADPHONES

Your child is required to have over the head, headphones with a built-in microphone.

The headphones on the booklist are not suitable for iPad 10th Gen, iPad Air and iPad Pros as they do not have a headphone jack. Your child will need either:

- Bluetooth headphones **or**
- Lightning/USB-C to 3.5mm Headphone Jack Adapter

NOTE: it is important to check that any headphones you purchase are compatible with the device and that the case you purchase is not blocking the headphone port.

PROTECTIVE CASE

iPad must have a sturdy case with an added tempered glass front screen cover.

The following brands are sturdy and do not obstruct the headphone jack, volume control and camera: **Gumdrop, Griffin Survivor and Otterbox.**

NOTE: Novelty cases do not provide effective protection for your child's iPad and may obstruct the headphone jack, volume control and camera.

TRAVELLING TO AND FROM SCHOOL

The iPad must be kept in a waterproof satchel in your child's school bag. The Algester school bag has a waterproof carrier section inside.
