The nitty gritty

- The first job you will need to do is to set up an Apple ID for your child.
- There are many ways this can be done, but the way that is supported by rating laws, Apple Education and Education Queensland is through the use of Family Sharing and setting your child up as a ‘CHILD’ Apple ID.
Family Sharing and Apple ID

- You will need to have a parent Apple ID. Some of you may already have this and there is no need to change anything about your own Apple ID.

- You will become the ‘ORGANISER’ of the Family Sharing and this allows all decisions for purchasing, content access and ratings access to be controlled by you.
